

EXAMPLES OF CUSTOM-MADE STEADYRESTS

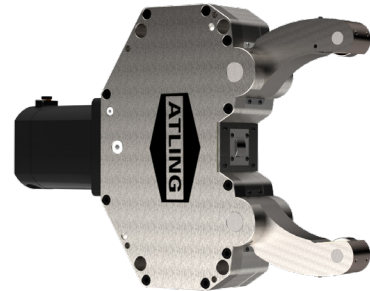

» Rubber Rollers

» Wide Rollers

» Diamond Pads

» Pneumatic driven
» Coolant driven

ZERO POINT CLAMPING BRACKET

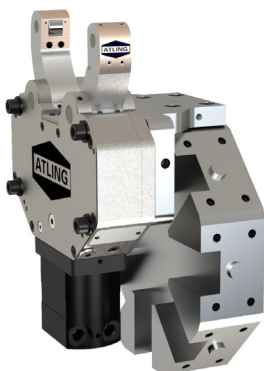

» Zero Point Clamping

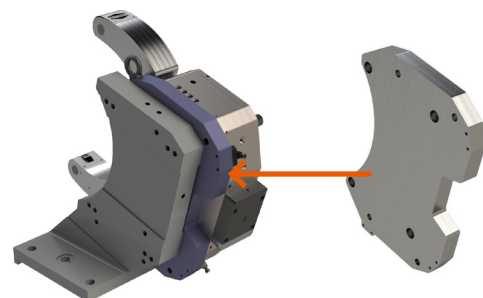

The ZPC-Bracket provides fast mounting/dismounting of steady rests, with repeatability of 2.5 μ and can be customized for any turning machine.

The steady rest is placed in the same position, every time it's clamped and doesn't have to be re-adjusted.
